Input features

ph

Hardness

Solids

Chloramines

Sulfate

Conductivity

Organic_carbon

Trihalomethanes

Turbidity

Target

Potability

Model Specification

Algorithms

SVM

Linear

Train Baselines: Mean Imputation, KNN Imputation

Model Training Configuration

Shuffle Samples

ACM Threshold

0

10

Evaluate ACM

Return Sample Requiring Imputation

Evaluation Metric

accuracy

Training Time Limit (seconds)

60

Additional Settings

Provide Imputation Function (Default Mean)
